2. Progress, influence and solutions of significant events

Applicable N/A

Progress of any share repurchase

Applicable N/A

The Proposal on the Plan for the Repurchase of Some Public Shares was approved at the 7th Meeting of the 3rd Board of Directors on 22 February 2019. As such, the Company was agreed to repurchase, with its own funds, no less than 60,000,000 shares and no more than 120,000,000 shares through bidding at the stock exchange at a price not exceeding RMB55/share. The Report on the Repurchase of Some Public Shares was disclosed on 28 February 2019.

As per the Measures on the Administration of Listed Companies' Buying back Shares Held by the Public (Trial), the Supplementary Provisions on the Share Repurchase by Listed Companies by Means of

Centralized Bidding, the Specific Implementation Rules of the Shenzhen Stock Exchange for the Share Repurchase by Listed Companies, and other applicable rules; therefore, the Company hereby discloses its share repurchase progress up to the end of September 2019 as follows:

As of 30 September 2019, the Company has cumulatively repurchased 60,252,129 shares (0.8654% of Company's total share capital as of that date) by way of centralized bidding in its securities account for repurchase. With the highest trading price being RMB 55.00/share and the lowest being RMB 45.62/share, the total payment amounted to RMB 3,099,683,600.75 (exclusive of trading fees). The repurchase was in line with the requirements of applicable laws and regulations, as well as the repurchase plan of the Company.

Progress of any repurchased share reduction through centralized price bidding

Risk analysis of positions held in derivatives during the Reporting Period and explanation of control measures (Including but not limited to market risk, liquidity risk, credit risk, operational risk, legal risk, etc.)	<p>For the sake of eliminating the cost risk of the Company's bulk purchases of raw materials as a result of significant fluctuations in raw material prices, the Company not only carried out futures business for some of the materials, but also made use of bank financial instruments and promoted forex funds business, with the purpose of avoiding the risks of exchange and interest rate fluctuation, realizing the preservation and appreciation of forex assets, reducing forex liabilities, as well as achieving locked-in costs. The Company has performed sufficient evaluation and control against derivatives investment and position risks, details of which are described as follows:</p> <p>1. Legal risk: The Company's futures business and forex funds businesses shall be conducted in compliance with laws and regulations, with clearly covenanted responsibility and obligation relationship between the Company and the agencies.</p> <p>Control measures: The Company has designated relevant responsible departments to enhance learning of laws and regulations and market rules, conducted strict examination and verification of contracts, defined responsibility and obligation well, and strengthened compliance check, so as to ensure that the Company's derivatives investment and position operations meet the requirements of the laws and regulations and internal management system of the Company.</p> <p>2. Operational risk: Imperfect internal process, staff, systems and external issues may cause the Company to suffer from loss during the course of its futures business and forex funds business.</p> <p>Control measures: The Company has not only developed relevant management systems that clearly defined the assignment of responsibility and approval process for the futures business and forex funds business, but also established a comparatively well-developed monitoring mechanism, aiming to effectively reduce operational risk by strengthening risk control over the business, decision-making and trading processes.</p> <p>3. Market risk: Uncertainties caused by changes in the prices of bulk commodity and exchange rate fluctuations in foreign exchange market could lead to greater market risk in the futures business and forex funds business. Meanwhile, inability to timely raise sufficient funds to establish and maintain hedging positions in futures operations, or the forex funds required for performance in forex funds operations being unable to be credited into account could also result in loss and default risks.</p> <p>Control measures: The futures business and forex funds business of the Company shall always</p>

	<p>be conducted by adhering to prudent operation principles. For futures business, the futures transaction volume and application have been determined strictly according to the requirements of production & operations, and the stop-loss mechanism has been implemented. Besides, to determine the prepared margin amount which may be required to be supplemented, the futures risk measuring system has been established to measure and calculate the margin amount occupied, floating gains and losses, margin amount available and margin amount required for intended positions. As for forex funds business, a hierarchical management mechanism has been implemented, whereby the operating unit which has submitted application for funds business should conduct risk analysis on the conditions and environment affecting operating profit and loss, evaluate the possible greatest revenue and loss, and report the greatest acceptable margin ratio or total margin amount, so that the Company can update operating status of the funds business on a timely basis to ensure proper funds arrangement before the expiry dates.</p>
<p>Changes in market prices or fair value of derivative products during the Reporting Period, specific methods used and relevant assumption and parameter settings shall be disclosed for analysis of fair value of derivatives</p>	<ol style="list-style-type: none"> 1. Profit from futures contracts during the Reporting Period was RMB 7,050,000. 2. Loss from forward forex contracts during the Reporting Period was RMB -1,005,062,000. 3. Public quotations in futures market or forward forex quotations announced by the Bank of China are used in the analysis of derivatives fair value.
<p>Explanation of significant changes in accounting policies and specific financial accounting principles in respect of the Company's derivatives for the Reporting Period as compared to the previous Reporting Period</p>	<p>N/A</p>
<p>Special opinions expressed by independent directors concerning the Company's derivatives investment and risk control</p>	<p>The Company's independent directors are of the view that the futures hedging business is an effective instrument for the Company to eliminate price volatility and implement risk prevention measures through enhanced internal control, thereby improving the operation and management of the Company; the Company's foreign exchange risk management capability can be further improved through the forex funds business, so as to maintain and increase the value of foreign exchange assets and the abovementioned investment in derivatives can help the Company to fully bring out its competitive advantages. Therefore, it is practicable for the Company to carry out derivatives investment business, and the risks are controllable.</p>
