1. The *Proposal Regarding Registering and Issuing Super Short-term Commercial Paper* was reviewed and approved at the 5<sup>th</sup> Meeting of the Second Board of Directors on 15 January 2016 and later at the First Extraordinary General Meeting of Shareholders for 2016 on 1 February 2016. With the purpose of diversifying financing channels, optimizing capital structure and improving its liquidity management capability, the Company plans to apply for registering and issuing super short-term commercial papers with an amount not more than RMB 20bn and expiration period not over 270 days, in accordance with the *Administrative Measures of the People's Bank of China for Debt Financing Instruments of Non-Financial Enterprises in the Inter-bank Bond Market*. On 29 March 2016, National Association of Financial Market Institutional Investors issued the Registration Acceptance Notice, in which it agreed to accept the registration from the Company of an amount of RMB 20bn of super short-term commercial papers (validity of two years starting from the date of the Acceptance Notice).
2. The Company has signed a Memorandum of Understanding with Toshiba Corporation (“Toshiba”) for Strategic Cooperation, in which both companies agree to strengthen their strategic partnership and to jointly explore new growth opportunities. As a result, the two companies signed a Definitive Agreement under which Midea will acquire an 80.1% stake in Toshiba Lifestyle Products & Services Corporation (“TLSC”), the home appliances arm of Toshiba (the “Business” or “Toshiba Home Appliances”), while Toshiba will retain a 19.9% shareholding. The transaction price for the 80.1% stake is approximately JPY53.7 billion (US\$473 million). Meanwhile Midea will be licensed to use the Toshiba brand worldwide in relation to the Business for 40 years, and will receive more than 5,000 home appliance related intellectual property assets.

The closing of the transaction is subject to customary regulatory filings in China and customary anti-trust clearances in relevant jurisdictions.

<p>Analysis of risks and control measures of derivative products held in the Report Period (including but not limited to market risk, liquidity risk, credit risk, operational risk, legal risk, etc.)</p>	<p>In order to reduce the price risk of the Company's bulk purchases of raw materials as a result of significant fluctuations in raw material prices, the Company not only carried out futures business for some of the materials, but also made use of bank financial instruments and promoted forex funds business, with the purpose of reducing the risks associated with exchange and interest rate fluctuations, realizing the preservation and appreciation of forex assets, reducing forex liabilities, and achieving locked-in costs. The Company has undertaken extensive evaluation and risk control with regard to derivative investment positions, details of which are as follows:</p> <p>1. Legal risk: The Company's futures business and forex funds businesses are conducted in compliance with laws and regulations, with clearly defined responsibilities and obligations between the Company and agencies.</p> <p>Control measures: The Company has designated relevant departments with the responsibility for enhancing expertise in laws, regulations and market rules, conducting strict examination and verification of contracts, defining responsibility and obligations, and strengthening compliance checks, so as to ensure that the Company's derivatives investment and position operations meet the requirements of the laws and regulations and internal management system of the Company.</p> <p>2. Operational risk: Risks caused by imperfect internal processes, staff, systems and external issues may cause the Company to incur losses during the course of its futures business and forex funds business.</p> <p>Control measures: The Company has not only developed relevant management systems that clearly define the assignment of responsibility and approval process for the futures business and forex funds businesses, but has also established a well-developed monitoring mechanism, aimed at effectively reducing operational risk by strengthening its risk control over the business, decision-making and trading processes.</p> <p>3. Market risk: Uncertainties caused by changes in the prices of bulk commodities and exchange rate fluctuations in foreign exchange markets could lead to greater market risk in the futures business and forex funds business. Meanwhile, the inability to raise sufficient funds in a timely manner in order to establish and maintain hedging positions in futures operations, or forex funds required for performance in forex funds operations that are unable to be credited into account could also result in loss and default risks.</p> <p>Control measures: The futures business and forex funds business of the Company are always conducted by adhering to prudent operation principles. For futures business, futures transaction volumes and applications have been strictly determined according to the requirements for production and operations, and a stop-loss mechanism has been implemented. Furthermore, to determine the prepared margin amount which may be required to be supplemented, a futures risk measuring system has been established to measure and calculate the margin amount already in use, floating gains and losses, margin amount available and margin amount required for intended positions. As for forex funds business, a hierarchical management mechanism has been implemented, whereby the operating unit which has submitted applications for funds business should conduct a risk analysis on the conditions and environment that could affect the operating profit and loss, evaluate the possible greatest revenue and loss, and report the greatest acceptable margin ratio or total margin amount, so that the Company can update the operating status of the funds business on a timely basis thus ensuring the arrangement of proper funds before expiry dates.</p>
<p>Changes in market prices or fair values of</p>	<p>1. Profit/loss from futures hedging contracts incurred during the Report Period was RMB 6.36mn;</p>

the invested derivatives during the Report Period. Analysis of the derivative's fair value should include the specific methods of use and the relevant assumptions and parameters.	2. Profit/loss from forward forex contracts incurred during the Report Period was RMB -111.43mn; 3. Public quotations in futures market or forward forex quotations announced by Bank of China are used in the analysis of the derivatives fair value.
Whether significant changes occurred to the Company's accounting policy and specific accounting principles of derivatives in the Report Period compared to the previous Report Period	No change
Specific opinion from independent directors on the Company's derivatives investment and risk control	The Company's independent directors are of the view that: the futures hedging business is an effective instrument for the Company to eliminate price volatility and implement risk prevention measures through enhanced internal controls, thereby improving the operation and management of the Company; the Company's foreign exchange risk management capability can be further improved through the forex funds business, so as to maintain and increase the value of foreign exchange assets; the abovementioned investment in derivatives can help the Company to fully realize its competitive advantages. Therefore, it is practical for the Company to carry out derivatives investment business when the risks are controllable.
